MORADA RTR

Style & Performance

This attractive appearance of this pool is enhanced with superior construction. From its resin top ledges and sturdy steel uprights and superior wall coatings. Every detail was designed to ensure the long life and lasting good looks for this pool.

MORADA RTR 52"

Strength & Value

The smart design of this pool provides strength and corrosion resistance where you need it most. Heavy-duty steel walls and uprights give you the strongest pool possible with resin top ledges where corrosion is most likely to occur. So you get a high-value pool without the high price tag-and a pool that will last for years to come!

selection

Your above ground pool has been designed to provide you with years of safe family fun. This entails that water safety must always be taken into account. When used incorrectly, your above swimming pool can be dangerous; above ground pools are shallow, and this makes diving and jumping unsafe. To ensure your above ground pool is used safely you must observe the safety precautions that are provided to you when you purchase an above ground pool and conform to all local regulations.

The dimensions, weights, illustrations and other specifications may not be exact as shown and are approximate. The company reserves the right to modify and/or discontinue without notification any feature in any pool model. ©Copyright 2012 01/12 B300- 236A
